WHAT IT IS A new indie West Coast label that puts eco-friendly fabrics to very stylish use. F.A.K.E. stands for Freedom Action Kindness Empathy.

WHAT'S ONLINE The small but versatile line includes a tank and a kerchief top, a tank dress, a tube dress, two wraps (large and small), a sash and a headband. Don't be misled by the small number of items on offer: The various colours and multi-use pieces give you all kinds of mix-and-match options. (The kerchief top alone can be worn 12 different ways.)

THE EXTRAS The material used is a blend of bamboo, cotton and soy – it's so soft that it has been dubbed "vegetable cashmere." Plus, this incredible material is biodegradable, organic, vegan-friendly, sweatshop-free and sustainably produced. F.A.K.E. is available through the company's online boutique and at Twigg & Hottie in Vancouver. -c.d.
