## ENVISION Live Green, Have Fun

### FASHION FREEDOM

Ladies, why fake it when you can F.A.K.E. it? Local fashion designer **Jasmine Currie** releases her second eco-friendly clothing collection this fall. **F.A.K.E. Couture** (Freedom Action Kindness Empathy) concepts are classically stylish and comfortable. Currie's first collection features **six pieces and two accessories**, which, with a few **twists and turns**, let you go **from office to beach to cocktail party**. With a stand-out kerchief top that can be worn at least 12 different ways, a tube dress that can go as a top, miniskirt, minidress, pencil

skirt or knee-length dress, and a large wrap, which can be converted into a dress or skirt, the combinations are infinite. Manufactured **locally from organic soy and bamboo fabrics**, there's nothing fake about it—and bonus: it's all machine-washable. Available at **Twig & Hottie** (3671 Main St.) or **fakecouture.com**, 604-715-5553. —*Joanne Will*
